Arutchelvar Ayya was a simple yet multi-faceted legend. A Gandhian by principle, a patriot, and a proud son of the soil, Dr. N. Mahalingam was a man of pious living. His exemplary social contributions in numerous fields of the socio-economic spectrum have benefitted scores of institutions and individuals.

An agriculturist by birth, he graduated to be an Engineer and Technologist. Through his persistent endeavour, he rose to become a genius in planning and execution, eventually to be hailed as an industrialist and pioneer of establishing various industries and institutions. He held several important positions and played major roles fostering the development of agricultural, industrial, human resource and institutional development at the State and National levels. His social and humanitarian considerations took his journey beyond the boundaries of industries and scholarly tenets he nurtured. And his social mission, true to his belief in Vallalar, was towards pursuit of excellence. The Government of India duly recognized his meritorious deeds and honoured him with the prestigious Civilian Award – PADMA BHUSHAN in 2007. His values and approach towards life still inspire our people and institutions.
About KCLAS

Kumaraguru College of Liberal Arts & Science (KCLAS) is a premier college in South India and we offer an education that broadens the mind and “liberal” thinking that encourages the questioning of assumptions and reliance on facts that can be interpreted differently through different lenses. We open the doors, enabling the mind to go wherever it wants in the pursuit of knowledge and understanding. It bends toward openness instead of containment. We offer comprehensive curriculum through which students will gain strong foundational knowledge and a wide range of other courses that the students may not have exposure in a regular undergraduate program.

We aim to build a culture that places enormous emphasis on value and enables the community to derive achievements and success from this foundation, rather than by replacing it. As an institution dedicated to learning, we invest in intellectual vitality and engage with stakeholders to make a difference locally and nationally. Our contribution to this shared efforts are the unique knowledge, transformative approach and skills generated by our core activities of education and research. Our success will be visible in continued growth of our impact and reputation, and that of our region.

We attract students and faculty who are intellectually curious, independent learners, value honesty, collaboration, and are passionate about making a difference. We embrace and celebrate the beauty in differences and use these opportunities to grow, evolve and learn.

Dance Club
A symbol of aesthetics and grace

With Eastern genres such as Classical, Folk, Contemporary and Kalari being the strongest foot hold of the club, the dancers of the club are the trendsetters. While they are also proficient in Western genres, in recent years, with their zeal and enthusiasm, have taken the purpose of dance to a much meaningful understanding. They have plunged into learning Mallar Khambam, a traditional South Indian sport where a gymnast performs aerial yoga postures and wrestling grips in hanging wooden pole, cane or hanging rope. The dancers of the club are trained in Stand Mallar Kambham, Rope Mallar Kambham and this year are in the mission of learning Fabric Mallar Kambham.

Goal
While the club will continue to compete in various dance shows and performances every year, they will also involve in absorbing other unknown forms of traditional dances for the love of nativity and culture.

Humor has been around as long as there has been humanity and considering that chimps and other primates laugh, humor has likely been around even longer than that. Being humorous or creating a humor is an ability to give a witty or a comical perspective to a thing, happening or a context through words and body language. A comical view makes the moment lighter and appealing. And sense of humor is also one’s ability to understand and appreciate the humor created. The Humor club, Haasya is like a magic land of exciting, witty conversations and actions delivered in a very entertaining, clever, ingenious and ecological manner.

Goal
Laughing out loud and often is a true relief from stress and aids good health. Members of the club at every opportunity bring together the community to learn to laugh.

India has the world’s second highest number of languages, after Papua New Guinea. According to 2001 Census India has 122 major languages and 1599 other languages. However, figures from other sources vary, primarily due to differences in definition of the terms language and dialect. The club, for the love of language, to know the beauty of its inception and evolution and the culture that builds with the language, formed the society of Indian languages in Kumaraguru this year, 2018.

Goal
Aim of the club is to get the student community of Kumaraguru collaborate with the native culture, heritage and practices, thus encouraging a multicultural living.

Books and Beyond
Seeing the world through books

Reading is to mind what exercise is to body. Reading is the best path to choose for one looking for transformation of the mind. With meets once a month to discuss and criticize books chosen according to different themes set for each month, the club aims to foster a love for voracious reading in students. This will also cause students to internalize and understand their role through book discussions.

Goal
Active learning is the purpose, growing together is the mission. Books and Beyond will bring together people with different thoughts who share a love for reading. With different events conducted every month, the club intends to spread the importance of reading and the impact it has on the individual.

What’s in for 2018 - 2019

Studio KCT is a start-up for photography that captures moments for memories. These shutter bugs work with high end DSLR cameras and advanced software systems to get remarkable results. They along with their commercial photo services also capture all events that take place inside the campus and keep the KCT community updated.
Kilappu is KCT’s Kick starter. It is a platform where the students’ business ideas are guided to become viable business models and start-ups. Karts (2.0) - an Art Shoppie and Rental cycles were incubated in Kilapu. Bakery, Auto garage, Boutique and T-shirt printing unit are some of the start-up projects for launch in the near future.
